## Cascading River of Love

John Pape

## About the Song

During difficult times we can experience moments where life is spiritually dry. This is how the Cascading River of Love starts. It sets the stage for individuals who are in a spiritually desert place. In this dry state of existence a desire to be refreshed and renewed is sought. When it come to Jesus, He is the source of living water and the Holy Spirit desires to drench his children with the ultimate refreshment that come from God. The image of a cascading river that pours down paints a picture of that experience. It is a continual deluge of spiritual filling. It happens not once but many times over and over. However the worshipper needs to examine their own motives and look to be purged of the dirt that dwell in their heart. Water not only refreshes but is has the power to clean. This is a story of restoration, renewal and refreshment by the love, mercy and grace of God.
